

1/4 CABLE BIT EXTENSION

TOUGH
ON ANY JOB SITE

REACH FARTHER WITH OUR NEW INSTALLER BIT EXTENSION

- Three flat non-slip grip on the chuck end
- Fish accommodation hole in the shank
- Longer lasting black oxide finish
- Available in 36" and 54" lengths

Custom slip resistant Nylon patch set screws

MADE IN USA

Connect to either a standard cable bit or any 1/4" hex shank drill bit

The Eagle Tool 1/4" Cable Bit Extension is ideal for electricians and cable installers who need to extend their drilling reach and capability when drilling through walls, studs, rafters and between floors.

It is quick and easy to connect to any standard cable bit or 1/4" hex shank drill bit. Slide the drill bit in and tighten the set screws.

This extension comes in 2 lengths; 36" and 54". Be prepared for any drilling situation by keeping both in your tool arsenal.

Having the right tools for the right job makes all the difference.
