MADE IN USA

Connect to either a standard 1/4" shank cable bit or any 1/4" hex shank drill bit

Installer & Drill Bit Extension 2 sizes:

- Item # ETHX25036 - 1/4" Head X 36" Shank
- Item # ETHX25052 - 1/4" Head X 52" Shank

1/4" Hex Shank Drill Bit

3 Flat Shank Cable Bit

The Eagle Tool 1/4" Cable Bit Extension is ideal for electricians and cable installers who need to extend their drilling reach and capability when drilling through walls, studs, rafters and between floors.

It is quick and easy to connect to any standard cable bit or 1/4" hex shank drill bit. Slide the drill bit in and tighten the set screws.

This extension comes in 2 lengths; 36" and 52". Be prepared for any drilling situation by keeping both in your tool arsenal.

Having the right tools for the right job makes all the difference.

1/4 CABLE BIT EXTENSION

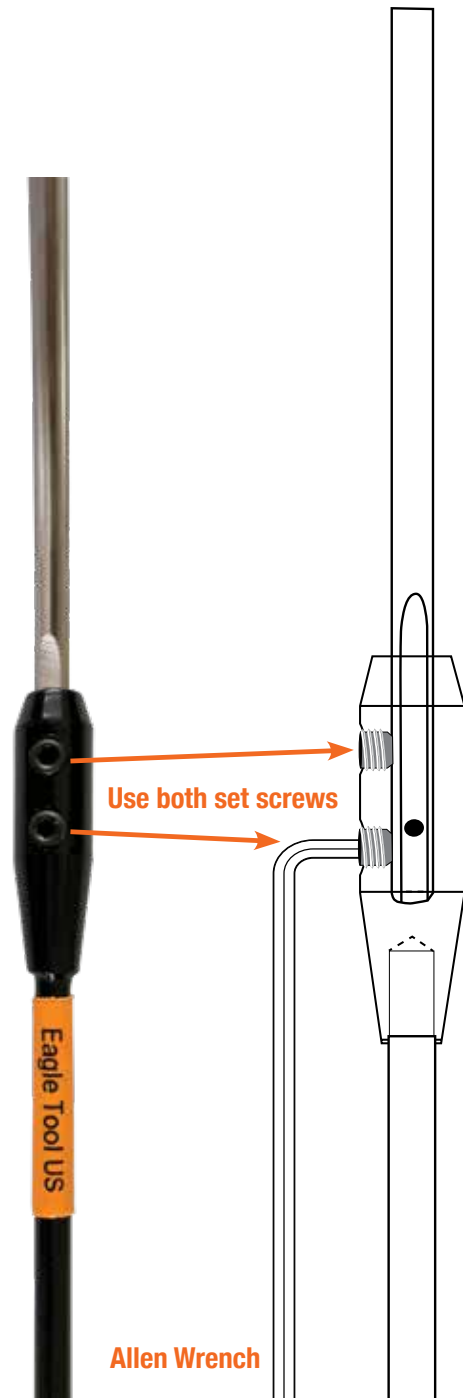

1/4" Hex Shank Drill Bit

Hex Shank Drill Bit goes to the first set screw and does not need the extra holding power of the second screw.

3 Flat Shank Cable Bit

Three flat shank needs extra support. Use both set screws.
